

# PALOMA HERNÁNDEZ SANTOS

I have a background of more than 20 years working as a scenic painter. I have developed most of my work in Film, TV and Theatre throughout UK, Spain and Brazil. This circumstance has allowed me to work with different designers, directors and artists, exploring a huge range of techniques and materials. My speciality lies in the scope of scenic painting for construction and props. Texturing and faux finishes: wood, ageing techniques, marble, metal, brick work, etc.. I have experienced many construction and design processes as a painter and HOD. I am extremely professional and passionate with my work. Highly skilled in drawing, composition and colour matching.

## education
